Movement of beans in carload lots from Everglades stations of

The Florida East Coast railway gained this week to greater volume than has been forwarded from the section since the week ending January 31. The gain was made in spite of the damaging frost the first of last week and indicates that a large acreage will again be producing in quantity.

Of the 114 solid cars that rolled from Everglades stations in the 7-day period from Thursday, March 15 to Wednesday, March 21, beans totaled 70 cars, peas 16, cabbage 9, mixed vegetables 15, escarole 3 and peppers 1. The escarole originated at Belle Glade and the peppers at Canal Point.

Increased movement of beans will be supplemented by carlots of

tomatoes in early April if favorable weather prevails during the winter months. The total volume is not expected until the middle or latter part of the month.

Farmers report that tomatoes are looking good although some damage in foliage has resulted from frost. The outlook is being set however and prospects for a good tomato season are favorable according to vegetable buyers and packers.

Farmers who are preparing to open the market for early tomato picking and several cars are expected to roll during the first week in April. A report was current at the Canal Point loading station Thursday that a car would be picked up by a truck the next week.

Commodity prices have been slightly weaker this week. Beans of ordinary quality have been in

greater supply than fancy stuff, best grades of flats bringing around \$1.50 a hamper. Stringent sold up to \$1.75. Lima in small lots are quoted at \$1.50 to \$1.75. Price of peppers broke to \$2.75 the middle of the week and brokers are cautious in buying until the market steadies.

A better April market for cabbage is expected for the local crop as shipments from Texas decline in the next few weeks but at the present time few cabbage are rolling unscold.

## ELECTS OFFICERS

**Abe Dobrow Named As President; Denton Reelected.**

Annual election of officers was held at the weekly luncheon meeting of Pahokee Rotary Thursday with Abe Dobrow elected as president, V. C. Denton reelected secretary and Joe A. Tolle, L. L. Stuckey, Johnnie Fourmy, Dr. W. C. Young and W. H. Vann as board of directors.

Abe A. Tolle, president, turned the meeting over to H. L. Lapp, chairman of the community service.

ice committee who gave an interesting talk along that line. Thursday morning the service of the Rotarian club publication.

The Rotary Club is sponsoring a move to raise funds to send a new Boy Scout from Casper Falls to the University of Minnesota and theatre tickets are being sold by members on a percentage basis to obtain \$100. A like amount is to be secured at other meetings by the committee composed of L. V. Stuckey, J. V. Thomas, V. C. Denton and Abe Dobrow. County Agent M. U. Mounts was a visitor.

## THE EVERGLADES NEWS

AN INDEPENDENT NEWSPAPER  
ISSUED EVERY FRIDAY

Entered at the post office at Canal Point, Fla., as second class matter.  
KEATLEY BOWEN,  
Editor and Proprietor.

Last year the Florida exhibit at the exhibits in the Hall of States, made the remark, "Florida is the beauty spot of the World's Fair." A similar remark was made by Mayor Kelly of Chicago to the effect that "Florida's exhibit is the most beautiful at the Fair." In his getting on radio word pictures, Floyd Gibbons admonished his radio listeners, "If you have but one day to see the World's Fair, see Florida and General Motors." And President Rufus Dawes' office was the authority for the statement, "Florida state show."

Not only was Florida's exhibit beautiful but it was actually seen by millions of potential travelers. Counting the cost and considering that \$200,000 saw Florida in its best, it actually cost less than 3 cents each for Florida to tell her story in the most convincing psychological setting possible.

The Florida exhibit was so unusual and so beautiful and so stirring to the imagination that it was one of mid-western newspapers, which had heretofore been hostile, gave Florida and her exhibit the same breaks never before equalled in the history of this state. If all the papers of the United States were pasted together, they would form a continuous column of one foot and one quarter miles long.

This stupendous amount, 350,000 columns of news, was actually given to Florida between June 1 and November 1 last year. If it had been bought on a commercial basis it would have cost more than \$2,000,000.

If all the money spent on last year's exhibit had been spent on Florida publicity (which of course it was not) its cost would have been only five-eighths of one percent per column inch.

Florida was on the air 254 different times with radio broadcasts, both locally and on national networks. It is impossible of course to count the number of times the state is readily estimated that millions of listeners heard Florida's story in all parts of the United States, and of course these radio broadcasts cost the state of Florida absolutely nothing.

All of this publicity has had great effect upon the season just past. Florida has had its greatest influx of winter visitors this year. The Florida state hotel commission estimated that 1,500,000 winter visitors spent \$7,500,000 a day here. They further estimate that one quarter billion dollars were left in the state of Florida by our winter tourists.

In the first place business is on the up-turn generally throughout the entire nation. There is more hope and courage everywhere. The family has "licked off to Florida" for that much delayed vacation this season.

Secondly, claying the gold content in the American dollar has depressed the American economy (Europe and any number of men who thought it swank and smart to take an annual voyage abroad have come here this winter).

In the third place, Florida has had an unusual break because of the extremely rigorous and early winter weather, "almost unprecedented in its severity in all parts of the state."

Four revolutions and political disturbances in countries of the south have made it undesirable to travel there.

But in the fifth place, probably the most important of all, Florida's greatest break came from the fact that she had an outstanding exhibit at the World's Fair in 1933, and as a result of that display had more favorable publicity during a short period of time than ever before in her history. Florida's many advantages were forcibly presented at the exact psychological moment.

Unfortunately for us, Florida is not the only winter resort in the United States, but fortunately Florida did receive more favorable publicity than any other resort state. Our winter visitors could have gone to any number of other places, but they came to Florida. And they came here because of the great amount of favorable publicity given to Florida through the Florida exhibit. Never before has this state so thoroughly advertised itself to so many people within so short a period of time as to small a cost.

Never before has Florida had so much favorable radio and newspaper publicity as during the short period last summer that the Century of Progress was in operation.

This time Florida did the right thing at the right time. They have all gathered the fruits of the harvest.

If silence is golden, we fear vice-president Jack Garner is guilty of it.

Every new dismantling plan negro to bring a little new hope to the millions manufacturers—San Diego Union.

The brightest idea in connection with the purchase of Florida was developed by a Georgia negro, who with a model T he sent three dollars to Georgia and got back his two tags. Knowing that in Florida only one tag is required, he sold one of his Georgia tags to another negro for three dollars.

Both negroes paid their tags on the rear of their vehicles and proceeded to inquire of a passing motorist the route to Pahokee. The passing motorist happened to be a state tag inspector—Okchocbee News.

And now Tallahassee has decided to step out and see if she can get the only one by taking some paid advertising in Miami papers. And why not Miami with all its money? It is Jacksonville, Pensacola, Tampa or Key West. Pahokee took the money and the money was not advertised, but it provided a beautiful forest of state pine and one quarter miles long.

Other north Florida communities should be taking note of this bringing to the attention of winter visitors, the delights of a motor car. Roads are excellent and rare scenic beauty awaits the visitor. A hundred miles of state pine and one quarter miles long.

This is a veritable sportsman's paradise. Excellent hunting and fishing of every kind await the man with rod and gun.

## SOUTH BAY

DEDICATION

SOUTH BAY, March 20.—Rev. G. H. Wolcott, pastor, announces the dedication ceremony of the new Community church for next Sunday, March 25 at 11 a. m. Dr. W. L. Murrell, district superintendent of the Miami district of the Methodist Episcopal church will be present and will conduct the service. The dedication service will be preceded by the church school services and followed by a covered dish dinner at the church.

All members and friends of the church are cordially invited to attend, coming in time for Sunday school and remaining throughout the day. The fourth quarterly conference will be held at 2:30 p. m.

The old church was destroyed in the hurricane of 1928 and this is the first time the Community church people have had their own church home since that time. Services in the meantime have been held in the school house through the kindness of the church board of education. Some outside aid was received from the Home Mission Society of America for relief after the hurricane struck by the city of Tampa and the Miami community church at Naranja. The remainder was furnished by contributions of local merchants and business men.

Practically every active member of the church has had a share in completing this edifice, so all are proud to belong to the efforts of the pastor.

The building is stucco and contains a good sized auditorium for front with living quarters for the pastor and family in the rear. The building is a beautiful and rare scenic beauty awaits the visitor. A hundred miles of state pine and one quarter miles long.

## CASTLES IN THE GLADES

Continued from Page One

Some of the outsiders who have witnessed rehearsal of the senior play, "Professor," predict that it will be one of the most entertaining plays ever presented in the high school auditorium. Not only is the plot of the play clever and amusing, but also the characters are presented in a very natural manner by the members of the cast.

The seniors have arranged for an entirely different stage scenery and furnishings for this play which will add much to the play. The two junior engineers in charge of the dragline section in Division 3 have been busy in advertising and handling all business arrangements. Due to the efforts, the seniors anticipate a good crowd on March 30.

Between the acts of the play good musical numbers will be presented by the Wallace orchestra, Mr. Brooks Spahn and Miss Margaret Busch.

Consequently the evening will be an enjoyable and entertaining one. Don't forget the date, March 30, 1934 at the high school auditorium.

FIRST CAR OF TEXAS GREEN BEANS SHIPPED LAST WEEK  
The first straight car of green beans to be shipped from the lower Rio Grande valley this spring and one of the earliest cars ever to move from this section, rolled Sunday of last week.

The car was shipped by White & Lavier, Inc., of Brownsville, Texas, and the quality was very good for such early beans. This firm rolled other cars the week but a frost a few days later cut the movement sharply.

Mr. and Mrs. W. H. Medina and south; and there is a sidewalk from the school north for some distance along the streets and road. Of course, there are some drivers who will look out for the children, while there are others who seem not to care. The school would ask the hearty cooperation of the parents in asking the children to use these sidewalks, rather than the street. It is better to take a little warning now, before we have a serious accident, than to wait until one of your loved ones may be smothered out by a careless driver.

The school will be in asking these children to cooperate in keeping down accidents, so your help is requested in carrying out the program of safety for these children.

Palm Beach county has been rather fortunate in that it has not had a serious accident to any of its school children. There has been a high mortality and high percentage of accidents over the state in carrying out the program of safety for these children.

T. G. Dickson and B. Elliott returned to Stuart on Tuesday last week.

Mrs. W. E. Burton has returned to home in Tampa after a two weeks' visit with her daughter, Mrs. B. Elliott.

Mr. and Mrs. A. Kallenbrunner spent Thursday and Friday in West Palm Beach and Miami. Mrs. Kallenbrunner, who had the misfortune to break her arm a few weeks ago, is improving.

Mr. and Mrs. H. L. Lapp were among those who attended the school building. It would be a serious handicap if our project should fail to be completed.

**NEWS FROM THE GRADES**  
**FIRST GRADE**  
Mrs. A. Q. Howell, our room mother, visited us Friday. She brought us a bag of apples. Mrs. Webb, Mrs. Hodges and Mrs. Byars attended our chapel program.

**SECOND GRADE**  
The second grade closely resembled a kindergarten Friday when seven mothers brought their preschool children to visit us while waiting for the clinic.

**THIRD GRADE**  
We enjoyed reading the "Child Life" magazine now. Betty Spear brings a copy every month. Mary and George are our housekeepers this week.

We weighed this week and everyone has gained some weight since Christmas.

Louise Sims handed in the following poem on "Birds" which we think is worth publishing:

It is spring and the birds have come to stay.  
They sing so sweetly I just want to pray.  
I listen to them every day.  
Their song is sweetly sung.  
They sing to me in prayer:  
"They can fly, fly away to a far away land in snow.  
It will rain, rain where the birds go."  
But we will have no snow.

**FOURTH GRADE**  
We have finished reading "Tom Sawyer" after so long. We enjoyed it much.

By the way, we want folks to know that our fourth grade is a "corner." We have one-third of our pupils who attend the "A" and "B" the past period. **LOW COST FUEL**  
Economy and efficiency are the watchwords of the new and popular Tractor Company have had time in mind in designing their current models, according to Cleveland Motor Company, local dealer at Clewiston.

Last year, the Diesel Fifty-Five was added to the world-famous Diesel Fifty and Diesel Fifty-Five," said Carroll McDonald, sales manager, and 1934 has brought two announcements of equal importance to power users requiring a smaller tractor. The first of these was the Twenty-Eight tractor, now comes the Twenty-Three, featuring triple economy and a "three-point" engine. This new model will be sold at the lowest price at which a Caterpillar tractor of its power and weight has ever been offered. It also has the ability to burn a wide range of low-cost fuels plus the proven economy of track-type tractor.

**CANAL POINT SCHOOL**

It has come to the attention of the school that many school children walk the streets rather than the sidewalks. This condition makes for the children who do this a rather dangerous situation, when cars are racing down the street without regard to the safety of the children. There is a sidewalk from the school to the depot on the south; and there is a sidewalk from the school north for some distance along the streets and road. Of course, there are some drivers who will look out for the children, while there are others who seem not to care. The school would ask the hearty cooperation of the parents in asking the children to use these sidewalks, rather than the street.
